Get Started with Mastering Biology for Homework

First, make sure you have these 3 things...

**Email:** Your WCU email address

**Course ID:** See the syllabus

**Access code or credit card:** The access code comes with your book. Alternatively, you can buy access during registration.

Next, get registered!

1. Go to [www.masteringbiology.com](http://www.masteringbiology.com). Under the large Register Now section on the right side of the page, click the Student button.

2. Read the onscreen instructions and select your location. Next, check that you have a Course ID (above). Type it in and click Go.

3. You will now need to enter your Access Code that was included with your textbook.

4. If you don’t have an access code, select your textbook (correct title, author, and edition) and whether you want an eText.

5. You’ll then be asked to Accept the License Agreement before moving on. After this, either Create a new Pearson username/password, or, if you’ve already registered for another Pearson product (e.g., MyMathLab), enter that username/password. If you have an Access Code, enter it on the bottom of the page.

6. On the next page, fill out the appropriate information fields then click Next. If you entered an Access Code, you will be brought to a page from which you can access your product. If not, enter your payment information so that you can Purchase Access, after which you’ll be granted access.

7. You are now registered! Now, it’s time to enroll in your course. Click Log In Now. Once signed in you can: enter your Course ID (same as Step #2) and your Student ID. That’s it!
